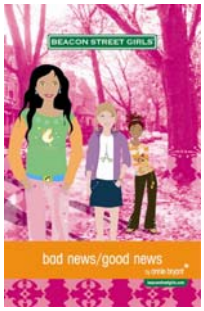
Research Activity: **Community Service**



"'Hey,' Maeve said, staring at Isabel as if she'd just had the best idea on earth. 'If you're artistic, you might want to help me out with my fabulous custom-made blanket idea!' She started describing the project with great enthusiasm, barely noticing how quiet Katani was across the table."
~*Bad News/Good News* p. 41

Maeve's idea for helping the community is to make blankets for the homeless. Can you think of a need in your community? What could you do to change things? What kind of project would be helpful?

In your groups, brainstorm ways that you, as kids, could contribute to the community or make a positive change. Construct a detailed plan about the steps you would take to make something happen. Include details such as phone numbers and adult resources that you would need to consult for help.

Can you think of a need in your community?

What would you do to change things?
